

School of Health Sciences – Maternal, Child and Family Health cluster presents:

## **‘Mental Health through the Lifespan’ conference**

6 September 2019, 10.00am-4pm, Kate Granger building

*A journey through how mental health affects different aspects during the lifecycle. This conference will include a combination of both academic research and experiences of mental health service users. Significant time periods during the lifespan will include pregnancy, childhood, adolescents, the working adult and the older adult.*

### **With speakers:**

**Dr Paul Hodkinson**  
(University of Surrey)

**Dr Louise Moore**  
(Children’s Society)

**Dr Wendy Grosvenor**
